Reasons WHY you should NOT Invest with Turtle

1.

If your investment horizon is **lesser than 2100 Days**, you should not invest

2.

If you can't see your portfolio **Down by 21%**, you should not invest

3.

If you expect **High returns** before 1000 days of investment, you should not invest.

4.

If you have **taken loan/bank CC** and doing investments to get the difference of returns, you should not invest.

5.

If your love for **Profits** is higher than the **Process** or **Quality of Business** we have invested, you should not invest.

6.

If you expect we will **ALWAYS** be in profits and **ALWAYS** outperform the benchmark, you should not invest.

7.

If you can't wait for last **20%** of the time for **80%** of the returns, you should not invest

8.

If you expect we will **always** outperform Interest rates every month, and every year there would be profits, you should not invest.

9.

If you are going to continuously compare Our Portfolio with other or different Asset class, you should not invest.

10.

If any of this point you **don't** agree, on a serious note you should not invest with us.
